

CABANA ANGEL EN POZOS

La Cabana de Ángel in Mineral de Pozos Guanajuato is a beautiful rustic cabin built on a land of 1 hectare of surface, elevated from the ground to 1 meter high, which allows in rainy weather to have a mirror of water under your cabin. The property already has electricity available, it is an investment that the owner has already made, so you will not have to consider any more expenses or additional time. The advantage of being relatively far from downtown is that you can propose a very private and quiet project or an area for events without disturbing the neighbors. Schedule your visit and take advantage of this unique opportunity.
