

## CASA FUENTES

This one of a kind property remodeled by renowned Architect Roberto Burillo, sits right above centro historico framing the majestic churches with the Guanajuato Mountain Range behind them for sunset viewings. One of Architect Burillo's finest work, with the textures of his signature thick white walls, boveda, tejamanil and beamed ceilings, marble floors, cantera floors, with muted colors all creating an essence of tranquility throughout. The home consists of 6 ensuite bedrooms and 2 half baths, an elevator that accesses the three floors of the home including the terrace with extraordinary views of San Miguel. On top of these amenities, there are seven terraces, 4 fountains, a jacuzzi in the primary bedroom with a view of the town's churches, and an infinity pool. Not enough to entice you...
