

CASA HORIZONTE

Casa Horizonte is a special project designed with an architectural sensibility that adapts to the natural terrain rather than imposing upon it, harnessing the topography to offer spectacular views of San Miguel de Allende's historic center from both floors. This dialogue with the land becomes a defining feature in select interior spaces: in the wine cellar and other chosen areas, the excavated stone is preserved as a natural wall, integrating the original hillside rock into the materiality of the home. The property is currently in an advanced stage of construction and ready to receive custom finishes of the client's choosing.

BEDROOMS:

4

BATHROOMS:

5
