

CERRADA PEDRERIA CASA 02

Living room, dining room and kitchen flow in a single volume that opens to an interior patio with their own light and vegetation, while the double garage and the integrated laundry Solve practicality without sacrificing aesthetics. When going up to Level 1, the house changes registration: four well-distributed bedrooms and two full bathrooms make up a private area that works as a separate world. That separation Between the social and the intimate is not accidental: it is design. With 15187 m² of land and 289,84 m² of construction, and the handcrafted finishes of Villanueva Fernandez, clay, exposed beams, solid wood and quarry, these two units represent one of the few opportunities to double position in a development of only nine houses. Private by Design. Schedule...
