

CLEVIA AUTOGRAPH COLLECTION 438

The project is formally conceptualized in several bodies that according to their use and location have between two and three levels, all linked to each other by porticos and open circulation areas. In this way we create several internal patios where spaces come together. Of these patios, we highlight the central courtyard that serves as the center of the entire project and is the space where the pool and communal areas of the complex are located, this is completely delimited by the buildings so that their life is completely internal. The building is accessed from the main road, both the parking lot and the porte cochere as the entrance to the hotel. The lobby houses a restaurant with a terrace facing the central courtyard, with vertical circulations that bring us to a lower...
