

TERRENO CABRAS SAN JUAN XIDO

Land with a gently sloping topography that is ideal for an architectural project with beautiful terraces. The space offers incredible 180-degree views, with the Allende dam to the left and front, and part of the mountains to the right. The sunsets are majestic, and at night you can see the city lights and thousands of stars, making this place a magical space. The daily silence invites rest, working from home, and tranquility. The community has shops and public transportation. Services such as shopping centers, schools, universities, and hospitals are located 8 kilometers away. You can build a residence or 3 independent houses. Water and electricity services are available. EJIDO documents. It does not have a public deed or property title. Currently, the community is in the process of...
